Canterbury Tennis

“Prophet is a tremendously efficient system that can be as simple or elaborate as you require it to be.

It works for us because it has all the features we need for our day-to-day accounts, plus it has the capacity to add on extra functions when we need them – this is essential for growing and changing businesses.

And we just love how Prophet and Attaché Alex saves us so much time! No more spending half a day writing cheques – it only takes a few minutes to pay our creditors and send remittance advices.”
