

MANUFACTURER

Snowdon Ltd

“I was incredibly impressed with Prophet from the outset. It is far simpler and much more logical than our previous system – in fact the integration of the entire package has streamlined the business.

Being able to instantly gauge the business with the management reports in the Prophet General Ledger has been essential in driving the business forward.

Even the more functional side of the business has improved dramatically. We have saved a lot of time with our manufacturing process through the Bill of Materials module. In addition, utilising the simple bank reconciliation function in the Prophet Cashbook has assisted in other areas of the business.

Prophet is simple, logical & I would recommend the product and the local support that is available.”

Gary Stratton

Profile

In business since 1987 and part of the Cynotech group of companies, Snowdon Ltd employs over 30 staff and is the largest manufacturer of ice cream cones in New Zealand.

They supply to all the major supermarkets, convenience stores and other leading franchise food service operators such as Wendys and the majority of the Cinema groups.

As well as their own brands and other confectionery products, Snowdon also produces specialist cones for select customers under private labels.

Supported by local Attaché & Prophet Consultant, Brent Irvine from Frontline Business Solutions Ltd, Snowdon has been using Prophet Business Software now for over 4 years. Since replacing their previous system with Prophet, General Manager Gary Stratton has seen vast improvements in the functionality of the business. See above and read what he has to say about *his* experience with Prophet...
