

IMPORTER / DISTRIBUTOR / MANUFACTURER

Sopers Ltd

“We send about 70 purchase orders a day. It was costing us about 4 hours a day in manual staff time to print and fax these documents to our suppliers. We were looking for a system to automate our documents delivery and to track documents.

Now with Alex we send the documents instantly from the system to our suppliers email addresses we have set up for them. Alex actually tells us when our suppliers have picked up the orders and opened them, as opposed to our previous manual system, where we could only tell when documents had been sent.

Additionally, we get notified straight back to our inbox here when the documents have been picked up. This is a massive time saver and efficiency improvement to our business.”
